

Veterans History Project

Dear Interviewer:

There are no words to describe the appreciation for you giving of your time for the Veterans History Project.

Attached are Sample Interview Questions and the Interviewer's Release Form. This form is required for the Library of Congress and the Illinois State Library in order to accept the interview. There are two release forms for each Veteran's interview – one for the Library of Congress and one for the Illinois State Library. If you interview two Veterans, you will need four release forms. Please print your name and information clearly so the court reporter, the Library of Congress, and the State Library can read your writing.

It is also a requirement the Biographical Data Form and Veteran's Release Form be completed by the Veteran. **Please assist the Veteran if need be as these forms are mandatory and must be completed in full.** There are two forms for each Veteran – one for the Library of Congress and one for the Illinois State Library.

At the conclusion of the interview, please make sure the court reporter has the completed Veteran's Release Forms and completed Biographical Forms, as well as your Interviewer's Release Forms.

Again, thank you so much for your time in helping us to preserve a little bit of our history.
